

## JPAK-AMC-600-14.6 Ameron Antenna Mount

### JPAK-AMC-600-14.6 AMERON ANTENNA MOUNT

For small cell 14 to 15" diameter canister antennas

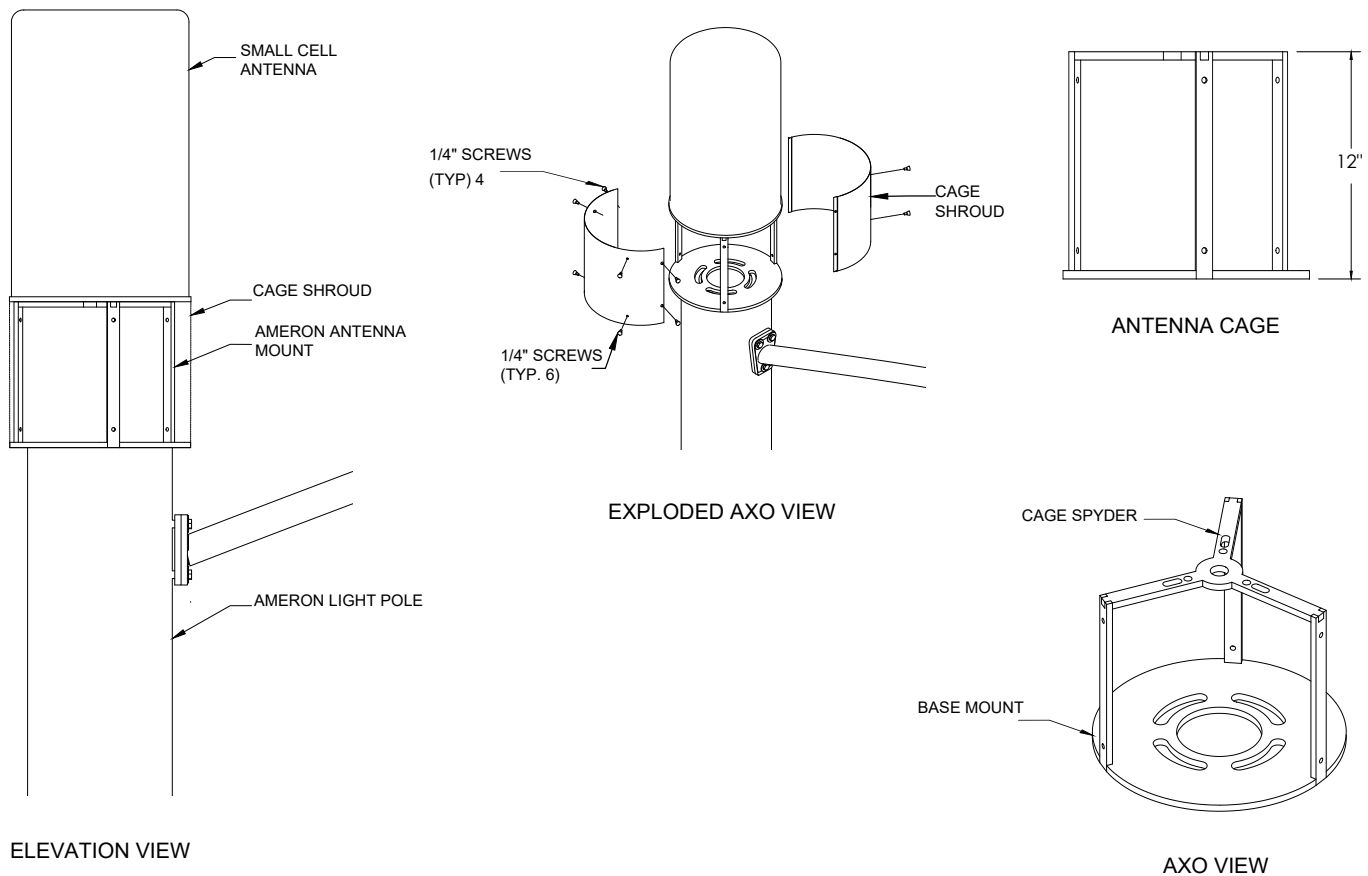

This innovative antenna mount is a seamless fit, designed for the Ameron round and octagonal manufactured concrete poles for the Southern California Edison (SCE) project. It attaches with four bolts to the anchors embedded into the top of the pole. The added 2-piece steel shroud provides a uniform look with maximum concealment for connectors and cabling.
